SOFTWARE DEVELOPER SUMMARY

- Extensive knowledge of Web Applications, Web APIs, and Javascript
- Restful JSON first APIs built with NodeJS and PHP
- Scaleable, low latency deployments with Docker, orchestrated with Kubernetes

WORK EXPERIENCE

RACEROSTER
SOFTWARE DEVELOPER
March 2020-Present

At RaceRoster, I help the small projects team, which is responsible for all issues and features not related to the core registration system. I use my full-stack skillset to constantly improve legacy system pages into the new standard.

SPORT-TRAVEL
LEAD SOFTWARE DEVELOPER
May 2017-March 2020

I lead the software department at Sport-Travel in London, Ontario where I pushed the team to develop scalable lightweight, progressive web applications. I approached leadership by encouraging idea sharing and regular employee participation. While also trying to lead by going above and beyond.

DUKETOYCO
CONTRACT WEB DEVELOPER
August 2015-July 2016

Web Designer for DukeToyCo. Website design, online marketing, social media presence, and online branding.

EDUCATION

WESTERN UNIVERSITY
September 2013-March 2017

I attended Western University for Computer Science. Relevant courses I completed are not limited to:

2033 MULTIMEDIA AND COMMUNICATION II
2208 COMPUTER ORGANIZATION
2209 APPLIED LOGIC FOR COMPSCI
2210 DATA STRCUTURES AND ALGORITHMS
2211 SOFTWARE TOOLS & SYSTEM PROGRAMMING
3319 DATABASES
3346 ARTIFICIAL INTELLIGENCE
3357 COMPUTER NETWORKS
3377 SOFTWARE PROJECT MANAGEMENT

SKILLS

VueJS, ReactJS
NodeJS
Python
PHP
Docker
Kubernetes
Google Cloud
CI/CD
SQL

INTERESTS

I am a passionate software developer, with a particular interest building modern web apps. Other then coding my hobbies include practicing piano and guitar, snow & water skiing, and curling.
